

EP INDUSTRIAL GEAR OIL

AMERICA'S CHOICE® EP Industrial Gear Oils are specifically formulated to hold up under extreme high pressure in all types of gear sets excluding built-in variable speed friction drives. Approved for use in Chrysler and General Motors. Increase the life of your heavily loaded or shock loaded bearings and gear sets with EP Industrial Gear Oils.

Since America's Choice® is made from recycled and re-refined used motor oil, it satisfies recent Federal directives for government agencies to use recycled/recovered materials, including:

- Executive Order 13423, signed in 2007 by President Bush, mandates "in Federal agency acquisitions of goods and services use of sustainable environmental practices, including acquisition of bio-based, environmentally preferable, energy-efficient, water-efficient, and recycled-content products"
- Section 6002 of RCRA that requires federal agencies to "procure such items composed of the highest percentage of recovered materials practicable"
- Federal Regulation 23.4 that requires Federal Agencies to "use recovered materials to the maximum extent practicable"
