Section 1 - PRODUCT AND COMPANY IDENTIFICATION

Material Name
Safety-Kleen Khameleon Universal Antifreeze & Coolant – Prediluted 50/50 Blend

Product Code
6539, 650039

Synonyms
Ethylene Glycol Based Antifreeze; Extended Life Hybrid Organic Acid Technology (HOAT) formulation for automobiles and light duty trucks (gasoline engines). Prediluted 50/50 blend.

Product Use
Antifreeze. If this product is used in combination with other products, refer to the Safety Data Sheet for those products.

Restrictions on Use
None known.

Details of the supplier of the safety data sheet
Safety-Kleen Systems, Inc.
2600 North Central Expressway
Suite 200
Richardson, TX 75080
www.safety-kleen.com
Phone: 1-800-669-5740
Emergency Phone #: 1-800-468-1760

Issue Date
February 2, 2016

Supersedes Issue Date
February 4, 2015

Original Issue Date
July 29, 2009

Section 2 - HAZARDS IDENTIFICATION

Classification in accordance with paragraph (d) of 29 CFR 1910.1200.
- Acute Toxicity - Oral - Category 4
- Serious Eye Damage/Eye Irritation - Category 2A
- Reproductive Toxicity - Category 2
- Specific Target Organ Toxicity - Repeated Exposure - Category 1 (lungs)
- Specific Target Organ Toxicity - Repeated Exposure - Category 2 (kidney, liver)

GHS Label Elements

Symbol(s)

Signal Word
Danger
Safety Data Sheet
Material Name: SAFETY-KLEEN KHAMELEON UNIVERSAL ANTIFREEZE & COOLANT – PREDILUTED 50/50 BLEND
SDS ID: 820058

Hazard Statement(s)
Harmful if swallowed.
Causes serious eye irritation.
Suspected of damaging fertility or the unborn child.
Causes damage to organs through prolonged or repeated exposure.
May cause damage to organs through prolonged or repeated exposure.

Precautionary Statement(s)
Prevention
Do not handle until all safety precautions have been read and understood.
Wear eye protection/face protection.
Do not breathe dust/fume/gas/mist/vapors/spray.
Wash thoroughly after handling.
Do not eat, drink or smoke when using this product.

Response
IF exposed or concerned: Get medical advice/attention.
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Rinse mouth.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

Storage
Store locked up.

Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

Statement of Unknown Toxicity
40% of the mixture consists of ingredient(s) of unknown acute toxicity.

Other Hazards
None known.

Section 3 - COMPOSITION / INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>

Section 4 - FIRST AID MEASURES

Inhalation
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

Skin
IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.
Take off contaminated clothing and wash it before reuse.
Eyes
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to
do. Continue rinsing. If eye irritation persists, get medical advice/attention.

Ingestion
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Rinse mouth.

Indication of any immediate medical attention and special treatment needed
IF exposed: Call a POISON CENTER or doctor/physician. Treat symptomatically and supportively. Call 1-
800-468-1760 for additional information.

Most Important Symptoms/Effects
Acute
Eye irritation, harmful if swallowed.
This product contains 30 to 50 ppm (0.003 to 0.005%) denatonium benzoate bittering agent which has been added to
help prevent ingestion by humans and animals.

Delayed
Reproductive effects, lung damage, kidney damage, liver damage.

Section 5 - FIRE FIGHTING MEASURES

Extinguishing Media
Suitable Extinguishing Media
Media to use includes carbon dioxide, alcohol resistant foam, regular dry chemical, and water spray or fog.
Water or foam may cause frothing.

Unsuitable Extinguishing Media
Do not use high-pressure water streams.

Special Hazards Arising from the Chemical
Slight fire hazard. Avoid friction, static electricity and sparks. Empty containers may contain product
residue.

Hazardous Combustion Products
Decomposition and combustion materials may be toxic. Burning may produce oxides of carbon, aromatic
hydrocarbons, phenols, unidentified organic compounds.

Fire Fighting Measures
Move container from fire area if it can be done without risk. Cool containers with water spray until well after
the fire is out. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles.
Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due
to fire. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas.
Apply water from a protected location or from a safe distance. Dike for later disposal.

Special Protective Equipment and Precautions for Firefighters
A positive-pressure, self-contained breathing apparatus (SCBA) and full-body protective equipment are
required for fire emergencies.

Section 6 - ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures
Wear personal protective clothing and equipment, see Section 8. Avoid release to the environment.

Methods and Materials for Containment and Cleaning Up
Remove all ignition sources. Do not touch or walk through spilled product. Stop leak if you can do it without
risk. Wear protective equipment and provide engineering controls as specified in SECTION 8: EXPOSURE
CONTROLS/PERSONAL PROTECTION. Isolate hazard area. Keep unnecessary and unprotected personnel
from entering. Ventilate area and avoid breathing vapor or mist. A vapor suppressing foam may be used to
reduce vapors. Contain spill away from surface water and sewers. Contain spill as a liquid for possible
recovery, or sorb with compatible sorbent material and shovel with a clean, sparkproof tool into a sealable
container for disposal. Additionally, for large spills: Water spray may reduce vapor, but may not prevent ignition in closed spaces. Dike far ahead of liquid spill for collection and later disposal. There may be specific federal regulatory reporting requirements associated with spills, leaks, or releases of this product. Also see SECTION 15: REGULATORY INFORMATION.

**Section 7 - HANDLING AND STORAGE**

**Precautions for Safe Handling**
Do not breathe vapor or mist. Do not eat, drink or smoke when using this product. Wear suitable protective gloves and eye/face protection. Wash thoroughly after handling.

**Conditions for Safe Storage, Including any Incompatibilities**
Store locked up.
Store and handle in accordance with all current regulations and standards. See SECTION 14: TRANSPORTATION INFORMATION for Packing Group information.

**Incompatible Materials**
ETHYLENE GLYCOL reacts violently with acids, bases, chlorosulfonic acid, metals, oleum, oxidizing materials, perchloric acid, reducing agents, and sulfuric acid. BENZOIC ACID reacts violently with bases, metals, and oxidizing materials.

**Section 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION**

**Component Exposure Limits**

</tbody>
</table>

**EU - Occupational Exposure (98/24/EC) - Binding Biological Limit Values and Health Surveillance Measures**
There are no biological limit values for any of this product's components.

**ACGIH - Threshold Limit Values - Biological Exposure Indices (BEI)**
There are no biological limit values for any of this product's components.

**Engineering Controls**
Provide general ventilation needed to maintain concentration of vapor or mist below applicable exposure limits. Where adequate general ventilation is unavailable, use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below applicable exposure limits.

**Individual Protection Measures, such as Personal Protective Equipment**

**Eye/face protection**
Safety glasses with side shields should be worn at a minimum. Additional protection like goggles, face shields, or respirators may be needed dependent upon anticipated use and concentrations of mists or vapors. Provide an emergency eye wash fountain and quick drench shower in the immediate work area. Contact lens use is not recommended.
Respiratory Protection
No respiratory protection is normally required. Use NIOSH-certified P- or R-series particulate filter and organic vapor cartridges when concentration of vapor or mist exceeds applicable exposure limits. Protection provided by air purifying respirators is limited. Do not use N-rated respirators. Selection and use of respiratory protective equipment should be in accordance with OSHA General Industry Standard 29 CFR 1910.134; or in Canada with CSA Standard Z94.4.

Glove Recommendations
Where skin contact is likely, wear gloves impervious to product; use of natural rubber (latex) or equivalent gloves is not recommended. To avoid prolonged or repeated contact where spills and splashes are likely, wear appropriate chemical-resistant faceshield, boots, apron, whole body suits, or other protective clothing.

Protective Materials
Personal protective equipment should be selected based upon the conditions under which this material is used. A hazard assessment of the work area for PPE requirements should be conducted by a qualified professional pursuant to regulatory requirements. The following PPE should be considered the minimum required: Safety glasses, Gloves, and/or Lab coat or apron.

Section 10 - STABILITY AND REACTIVITY

Reactivity
No reactivity hazard is expected.

Chemical Stability
Stable at normal temperatures and pressure.

Possibility of Hazardous Reactions
Will not polymerize.

Conditions to Avoid
Avoid heat, flames, sparks and other sources of ignition. Avoid contact with incompatible materials.

Incompatible Materials
ETHYLENE GLYCOL reacts violently with acids, bases, chlorosulfonic acid, metals, oleum, oxidizing materials, perchloric acid, reducing agents, and sulfuric acid. BENZOIC ACID reacts violently with bases, metals, and oxidizing materials.

Hazardous decomposition products
None under normal temperatures and pressures. See also SECTION 5: HAZARDOUS COMBUSTION PRODUCTS.

Section 11 - TOXICOLOGICAL INFORMATION

Information on Likely Routes of Exposure

Inhalation
May cause lung damage, kidney damage, liver damage.

Skin Contact
Causes mild skin irritation.

Eye Contact
Causes serious eye irritation.

Ingestion
Harmful if swallowed. May cause vomiting and nausea.

Acute and Chronic Toxicity

Component Analysis - LD50/LC50
The components of this material have been reviewed in various sources and the following selected endpoints are published:

- Ethylene glycol (107-21-1)
  Oral LD50 Rat 4700 mg/kg
  Dermal LD50 Rat 10600 mg/kg

- Benzoic acid (65-85-0)
  Oral LD50 Rat 1700 mg/kg
  Inhalation LC50 Rat >12.2 mg/L 4 h (no deaths occurred)

Immediate Effects
Eye irritation

Delayed Effects
Reproductive effects, lung damage, kidney damage, liver damage

Irritation/Corrosivity Data
Eye irritation

Respiratory Sensitization
No information available for the product.

Dermal Sensitization
No information available for the product.
Component Carcinogenicity

</table>

Germ Cell Mutagenicity
Based on best current information, there is no known teratogenicity associated with this product. Based on best current information, there is no known mutagenicity associated with this product.

Tumorigenic Data
No information available for the product.

Reproductive Toxicity
Suspected of damaging fertility or the unborn child.

Specific Target Organ Toxicity - Single Exposure
No target organs identified.

Specific Target Organ Toxicity - Repeated Exposure
Lungs, liver, kidneys

Aspiration hazard
No information available for the product.

Medical Conditions Aggravated by Exposure
Central nervous system disorders, eye disorders, kidney disorders, respiratory disorders, heart disorders, skin disorders and allergies

Section 13 - DISPOSAL CONSIDERATIONS

Disposal Methods
Dispose of in accordance with all applicable federal, state and local regulations. Regulations may also apply to empty containers. The responsibility for proper waste disposal lies with the owner of the waste. Contact Safety-Kleen regarding proper recycling or disposal.
This product, if discarded, is not expected to be a characteristic or listed hazardous waste. Processing, use, or contamination by the user may change the waste code(s) applicable to the disposal of this product.

Section 14 - TRANSPORT INFORMATION

US DOT Information:
No Classification assigned.
Additional Information: Bulk Shipments 5000 lbs or greater of ethylene glycol (~1070 gallons blended product):
UN 3082, Environmentally hazardous substance, liquid, n.o.s. (Ethylene glycol), RQ, 9, PGIII

IATA Information:
UN#: Not regulated as a dangerous good.

IMDG Information:
UN#: Not regulated as a dangerous good.

TDG Information:
UN#: Not regulated as a dangerous good.

Section 15 - REGULATORY INFORMATION

Volatile Organic Compounds (As Regulated)
46-51 WT%; 4.1-4.6 LB/US gal; 495-548 g/L
As per 40 CFR 51.100(s)
Non-photochemically reactive per SCAQMD Rule 102
Consult your state or local air district regulations for location specific information.

U.S. Federal Regulations
This material contains one or more of the following chemicals required to be identified under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65), CERCLA (40 CFR 302.4), TSCA 12(b), and/or require an OSHA process safety plan.
