Indication of Immediate Medical Attention and Special Treatment Needed, If Needed
Treat symptomatically and supportively. Call 1-800-468-1760 for additional information.
**Section 5 - Fire-Fighting Measures**

**Suitable Extinguishing Media**
- Carbon dioxide, regular dry chemical, water spray, alcohol resistant foam.

**Unsuitable Extinguishing Media**
- Do not use high-pressure water streams.

**Specific Hazards Arising from the Chemical**
- Combustible liquid and vapor. Avoid friction, static electricity, and sparks.

**Hazardous Combustion Products**
- Oxides of carbon.

**Special Protective Equipment and Precautions for Firefighters**
- Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.

**Fire Fighting Measures**
- Move container from fire area if it can be done without risk. Cool containers with water spray until well after the fire is out. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas. Apply water from a protected location or from a safe distance. Dike for later disposal.

**Section 6 - Accidental Release Measures**

**Personal Precautions, Protective Equipment and Emergency Procedures**
- Wear personal protective clothing and equipment, see Section 8. Avoid release to the environment.

**Methods and Materials for Containment and Clean Up**
- Remove all ignition sources. Do not touch or walk through spilled material. Stop leak if possible without personal risk. Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Ventilate area and avoid breathing vapor or mist. Contain spill as a liquid for possible recovery, or sorb with compatible sorbent material and shovel with a clean tool into a sealable container for disposal. Additionally, for large spills: Dike far ahead of liquid spill for collection and later disposal.

**Section 7 - Handling and Storage**

**Precautions for Safe Handling**
- Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, open flame, and hot surfaces - No smoking. Avoid breathing vapor or mist. Use only outdoors or in a well-ventilated area. Do not eat, drink, or smoke when using this product. Wear protective gloves/clothing and eye/face protection. Wash thoroughly after handling.

**Conditions for Safe Storage, Including Any Incompatibilities**
- Store in a well-ventilated place. Keep cool. Keep container tightly closed. Store locked up. See Section 14 for packing group information.

**Incompatibilities**
- Metals, bases, oxidizing materials, peroxides, combustible materials.

**Section 8 - Exposure Controls / Personal Protection**

**Component Exposure Limits**

Engineering Controls
Provide general ventilation needed to maintain concentration of vapor or mist below applicable exposure limits. Where adequate general ventilation is unavailable, use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below applicable exposure limits. Where explosive mixtures may be present, equipment safe for such locations should be used.

Individual Protection Measures, such as Personal Protective Equipment

Eye/face protection
Wear safety glasses. Additional protection like goggles, face shields, or respirators may be needed dependent upon anticipated use and concentrations of mists or vapors. Eye wash fountain and emergency showers are recommended. Contact lens use is not recommended.

Respiratory Protection
Use NIOSH-certified P- or R-series particulate filter and organic vapor cartridges when concentration of vapor or mist exceeds applicable exposure limits. Protection provided by air purifying respirators is limited. Do not use N-rated respirators. Selection and use of respiratory protective equipment should be in accordance in the USA with OSHA General Industry Standard 29 CFR 1910.134; or in Canada with CSA Standard Z94.4.

Glove Recommendations
Where skin contact is likely, wear gloves impervious to product; use of natural rubber (latex) or equivalent gloves is not recommended. To avoid prolonged or repeated contact where spills and splashes are likely, wear appropriate chemical-resistant face shield, boots, apron, whole body suits or other protective clothing.

Protective Materials
Personal protective equipment should be selected based upon the conditions under which this material is used. A hazard assessment of the work area for PPE requirements should be conducted by a qualified professional pursuant to regulatory requirements. The following PPE should be considered the minimum required: Gloves, Safety glasses, and Lab coat or apron.
